Resolution to Update HOA Board and Design Review Board Policies

Dated May 15, 2025

The Riverwood Trails Board of Trustees is adding an additional option for the storage of trash containers and setting an enforcement policy and timeline.

Many neighbors have expressed dissatisfaction with the trash can storage requirements over the years. The Riverwood Trails Grounds Committee took these concerns and presented the board an alternative option of installing a screen to hide the containers from public view. We believe many neighbors will find this helpful and would like to take advantage of this option.

We understand that many homes have stored their trash and recycling on the side of the house due to garage space and the inconvenience of storing them behind the home. This is in violation of the covenants.

Enclosed is an updated garbage can storage policy stating the three options for storage. Homeowners wishing to install a screen need to submit a design review application specifically for a garbage can screen/enclosure before installation (application enclosed).

To allow for installing screens for those interested, we are providing a grace period before enforcement of the policy. Homeowners will have until October 1st to be in compliance with the policy.

Design applications should be emailed to **home@riverwoodtrails.com**. Please allow 1–2 weeks for the review process.

If there are any questions, please reach out to a board member or send an email to home@riverwoodtrails.com.

Garbage Can Storage Policy

Purpose: To conceal garbage cans from public view.

Storage Options

1. Inside garage
2. Up against the back of the house
3. Up against the side of the house with an approved screen/enclosure

Garbage cans are not allowed in the driveway or front of the house.

Screen/Enclosure Regulations

1. Color

- a. Same color as house or trim
- b. Black
- c. White

2. Dimensions

- a. Height of screen/enclosure cannot exceed 50 inches.
- b. Cannot extend more than 50 inches from your house.
- c. Length cannot exceed 12 inches beyond the last garbage can (not to exceed 4 garbage cans).

3. Materials

- a. Wood
- b. Composite
- c. PVC

4. Maintenance and More

- a. Homeowner is responsible for the upkeep of the screen/enclosure.
- b. Garbage can screens/enclosures cannot be used for anything other than storage of garbage cans.
- c. Screen/enclosure must not have large gaps between boards/slats.
- d. Garbage can screens/enclosures must be approved by the Design Review Board prior to installing (see attached application specifically for garbage can screen/enclosure).

5. Violations

- a. The HOA will send notifications to the homeowner of a violation of garbage placement or lack of upkeep to the screen/enclosure.
- b. A fine of \$25/month will be charged to the homeowner, not to exceed \$200 annually.

See the Design Review Application on the website's HOA Documents page to submit a garbage can screen/enclosure request.
